When a man Is Single as I Was at an early age as Young and Tender Girl of 17 Summers and and Not that I Loved her but because I took a fancy to her it is uncertain Wether we will Love and cherish her or make her Miserable but my Life Was a Wilde one and a Sailor and just Look at how much She has done for me When I was in poverty She took me as partner of her Bosom when in Sickness She has ever stood by my Side and nursed me with a mothes care and when in misfortune She has ever been by my Side to console and comforte me and when others has cast me off She has nobly stood by me and When I have returned home Drunk with Intoxicating Liquor She has stood and watched over me in the Dark hours of the Night and when the fumes of Drunkeness have been Kept away She has ever been By my Bed side to administer Drink to my Burning frame and often as I've look Eight beamed from her eyes as She has besought me for the Love I bore her and our Smiling Babes to Leave off Drinking and by what I have Promised her with for Doing this I Loved her yes I Loved her as well as man can Love but entoxicating Got the Master of me and I was its Slave.

We are now in the Latt of 26.15 South &
Long of 48=15 East 29 Months out with
450 sp & 50 whale cruising and a hard cruseing
ground it is plenty of rain & thunder &
Lightning Gales of wind and Other nice things
wich make it very comfortable and hard
Luck puts the cream on as for oil I think
we have got all we shall get this voyage
if we stay a month longer this season
we have struck 250 [illegible] that we have
not got and God knows I have tried
as hard to get a whale as ever I tried
but they were not for us and it is all for
the best I think and know for if it
was not it would have been Different
it is hard for me who have got a family
but I shall try to make the Best of it
and be satisfied with my lot wich
God knows and I know is a hard one
and has been for the Last 14 years

My Dear & affectionate Wife

although grate distance
Seperates us still I cling to the fond Remembrance
of you and our Son you may say why Dont he
come home if he thinks so much of home because
I have Left one Ship and I will not Leave another
we are now 9 days out of Callao and have got nothing
but fx Blackfish I often think what a thing it would
be to you if I should never get home but God
only knows Whether it not be the best thing
for you I know that I have been Wild and unsteady
and that I have not done as I ought to have done
by you but for every hour of uneasyness I have
been to you it has cost me months I write this to
Let you know my feelings there is one thing
that has cost me many unhappy Days that
~~it your saying that you never would live~~
~~with me again~~ but I am in hopes that
you will forget that if ever I get there
perhaps some thing may occur to me that may
extinguish the Lamp of my Life before I get
home if it does then the all seeing and all
hearing God will watch over and protect
you as he has done heretofore for god is a
merciful god if Deth comes and cuts off the
thred of my Existance then you can marry
again and perhaps take more comfort
then you did with me but if god should
Spare my Life I will make some amends
for the past When in Wahoo I had a chance
to go to california in Callao the same in
Callao I was offerd 2 dollars per Day for 1 year
but all Hopes inducement could not make
me Leave my Ship

for I had rather come home with nothing than Leave another Ship if fate Willy it So then I'll be So but it is a Sore thing for me to come home with nothing and that To to a wife I Should be than the poverty of my Life. but god will be Done now and for ever more. Still I love you with a Love that can never fade and with fond remembrance I sing to. your Last fond Look of Love I ever See you give me We are now 27 days out of Callao with 20 bbls Black Fish in 45 or 50 days more I Shall be in Talchuano and then in 3 or 4 months I Shall be at home

Far from home & friends I be

and the threos of my Brest
Like its undolating Motion

Though I am far upon the deep
I hope I am not yet quite forgotton
Though friends for me should ceast thinking
I near shall ceas for to regret them

There is an overruling power
that guides my footsteps every Day
I still Do hope to meet again
with those that now are far away

Blest visons oft Do cross my mind
Of Wife & children friends & home
And o may god protect them all Sep 17

Theres still one consolation left
If they do blame me god Does not
I cannot murmur againts his will
then why not be contented with my Lot

'tis true
Should god see fit he rules mankind below
to send me welth & helth poverty or woe
I could not would not murmer against his will
Since god alone ordained it to be so

1100 barrels 500 up at the Least calculation in my opinion for he is a man & God & the whole ship company knows it & other ships company too -

Sept 23d 1847 this day the old man told me to have the Deck washed off where the Officers had ... I told Mr Macy & went aloft when I came down he began on me and wanted to know if I done as he told me I replied it was my Loft & that I told Mr Macy he answered blast the Lofts and to ... he told me I told him I was not the only one that went there & that anything would do to find fault with me for then he said do as you ought to I told him that I had tried to pleas him all the voyage & you know it & the more I tried the more I came from it & that I wanted was good usage from him & that I had not had it for the Last 2 months

So end this Day

Oct 16th 1847 this day the Steward told the Capt that I had drawed lye out of a barrel aft that Mr Cheanston & Macy had filled up so the old man enquired of the foremast hands if I had a lye barrel and at night I went Down below & was gone 10 minuets the Capt asked Mr macy if he had given a wach below after 4 o clock he said no then Dont call them forward nor aft so he went and told a foremast hand to Do my Duty I have not been below all Day to stap 3 minuits before Except meal time

Monday 19th Commences with all hands
in cash Says they had Do much that he
will keep them to Work he is a christian
So he thinks I would to God I could think
So too, we have not got much oil but
Whos fault is it off St Marys Bark we
Saw Sperm Whale 2 Days running & he
would not stop there for fear he should
have a gale then we went to St Pauls
2000 miles & staid a few Days sent the Boats
off once & saw Several Whales & then had
a gale & he Left there then on New Holland
coast saw Sperm Whales 3 Days running in
the Latt of from 28 00 to 29 00 Long
to go to 116 00 & carried all sail to get
away for fear it would blow & since we
have been almost across the Indian Ocean
& never got a whale with studding Sails
Set Night & day & who wonders we Don
get a voyage I come here for a voyage
but it look Discouraging & if there was
any place I would be better but no its find
fault all the time I dont belief there is
a man in the Ship that would put
out his hand to save his Life I would
not if we see whales he will whale it with
his old hat until they git gallied &
then Lay it to his Officers & that is the
way the voyage is going on I wish
I was out of her if it it was on
a Desert Island & the other officers too
he is the most Disagreable man I ever
saw and the most ignorant Capt I
ever sailed with & he thinks he knows
more than all the rest of the masters on
the coast & he is the Laughing stock of
the whole New Holland fleet & the whole
ships company hate him with a deadly hatred
if the mate had had the ship we should ha

Feb 18th & no whale yet A Long ways from home and in Low
spirets, but if Dame fortune favors us we will wait until
she throw a pleasing glance so no more to night I will turn
Sunday Night and another week gone and no whales but
every thing is for the best he that Made the sea and dry
Land knows what is best so the Lords will be done and
not mine I will Live in hopes and may I never be cast
away on the rock of despair so wishing good to all men and
crave the blessing of God on all I will turn in Feb 21st
Feb 23d this night it blows a heavy Gale and I have got 4 boys on
Deck and no whales yet but all is for the best and so it will
turn out I hope I feel as though I would be glad to see
my wife but if by the blessing of God I should Live
I hope to see her in 22 months more I am as far from her
as I can be just half way round the world and often
think with a sigh of the pleasant hours that we have
spent together and the pleasant Days yet in store for
me yet if by the blessing of God we are spared to
Live March 8th they might Little baby 8
months old if he is living and I am a long time
out and not much oil yet and time Looks
discouraging yet I will not despair of yet getting
a voyage and will trust in God the all seeing
and the kind Redeemer ———

to think of those I have Left Behind me in fancy I see them by Day
& in my Dreams my Night & She has ever been my gardian angel
When in poverty She took me as the patron of her Bosom when
in sickness She has stood by my side to administer to my
wants when they have cast me off She has been by
my side to console and comfort me when in sorrow She would
cheer me and when I have returned home Drunk with
cursing and blasphemy on my lips She has watched over
me in the Dark hours of Night as the Mother watches over
her sleeping babe and when the fumes of drunkenness Love
has left away then She would administer drink to
my burning frame often has holy light beamed from
her eyes as she besought me to refrain from my Demon
Revels often has she besought me by the Love I bore her
and on smiling take to Leave off Drinking but in
vain 3 years I passed away in this manner intill at Last
I was a wreck in my own eyes and saw the hoard of
road of ruin which I was fast hastning along and resolved
to make one effort to save my self on it was to take to
sea this I have tried and thanks be to god I think I have
accomplished my purpose whil I tread the plank of this
Ship I can see what a scourge I have been to my family having
up as I was in the fear of God with a christian mother and
she used to observe the strictest rules of God but alas how frail
is man life is but a dream and one misstep with often
plunges man in to the Lowest grades of Life & ardent spirits will
bring him on a Level with the vilest beast of prey
to god and a poor miserable outcast on the face of God
earth neather fit to Die or Live and no hope for the present
nor future he will Linger out a miserable existance and
finally go down to the grave unhonored and unbewailed and
mourned for by None not even by the partner of his bosom
or children but it will be long ere they cease to mourn his untimely

O Let us seek our heavenly King
With praises cause the air to ring
In one triumphant song
And onward like the Star of Night
Let us try to seek him aright
As here we journey on

O may some gaurdain angel chase
Teach us our trials to endure
And lead us fondly on
With speed may we behold him right
That heavenly God who lives on high
And hear our happy vows

Sunday 4 day of July Lying in a Heavy gale off the Island of Amsterdam Whilest I contemplate my thought End my mine of the poor success we have met with this far although we have tried hard to get a whale yet fortune does not to smile upon us although it seems hard to us poor short sighted Mortals yet god is a merciful God and he will look on the bright side of everything and how many is there in my own town that are happy to day while I am Downcast and melancholy for from friends and home and all that makes life agreable on an almost Boundless Ocean with the prospect of 2 or 3 more before I can see my family

From the beginning of my Life Misfortune has followed me and Dispair is still rooted deeper and deeper as year after year rolls round it seems as if there is Nothing but misfortune for me, voyage after voyage I have sailed the Ocean and yet I can gain Nothing although I have got a family the Same evil Star of my destiny shines full as bright as ever but I hope it is at its zenith and I shall get something yet, but God knows and he only can if there is any thing for me I wish I could get now while in my youthful days and that I might be able to give joy and comfort to my family Education to my children & gladden the hearts of my aged Parents

Blow Blow yea winds ye Surges roar
And thunder peal from shore to shore
While I upon thy Bosom thron
My hapless & hard fate to mourn

Though Lightnings flash around my head
And dreary is the Night & dread
I on her trembling Deck must stand
And wach through Darkness for the Land

O splendid is the sight I See
Nature in all her bright aray
Though awful and Sublime the Sight
Tis gods own power and wondrous might

Thus on sea as on the Land
We see his overruling hand

Come let us join the social throng
And seek our aid from god on high
With singing make the air resound
For god has said I will be nigh

To those that call on me for aid
Shall always find me near
To the lonely pilgrim on the wave
His sinking soul to cheer

Like wise to those that dwell on land
That my mandates do obey
Shall always find me nigh at hand
When they do kneel to pray

Come one come all and join the prayer
Before it is to Late
And seek redemtion from on high
Before Deth does seal our fate

Upon a trackless & unbounded Sea
Thinking of those afar beyond I rest

youth has its joys, at Least I know mine had,
Since yet my uncontented mind Looked far ahead
And Blessed I was with kind parents Dear
yet uncontented, thirld o what thought life youth,
My mind was yearning for some distant shore.
As I grew up, fond visions flashed across my mind
of sceans more Dear than I could Leave behind.
years passed by, and every year brought some new hopes
of Lands I was to visit: those pleasant hill & valleys that
I roamed, they had no charm for me, my parents chide me
gently for they saw my Discontent,
at Length I sailed, and yet with many a tear
Because I saw my aged father standing near was it unmanly
no I wept for those that bore me.

I did Exclaim farewell my native Land

Give praise to Almity God
Who guides us on our way
And rules us with his mighty rod
That we shant go astray

Who Lives us with his mighty Love
With mutaly we shall know
That we may go to heaven above
from this vain world Below

His Love it will ever prove true
If we but serve him well
In yonder cloudy blue
To heaven with him to Dwell

Fare well to America Dear Mary Adams
May the gale prove Auspicious that may waft me from
Thou the Ocean Rolls my as wide as the pole You
No Distance can change the True Love of my soul

As well might my messmate be Determined to bale
all the water that swims in old Neptunes pail made
All to Divert my fond heart from the fond
Fare well to America Dear Mary Adams thought of you

Dear Mary Adams can our Ship prove a Wreck
When thy name is engrave on each plank on our deck
Many a time Lovey not in the Logs I have made
While our carefree my shipmate at the checkers have played

Three Blooms & pastimes are no pleasure to me
I am happier by far while thinking on thee
I am happier by far Love while thinking of you
And the hopes of return takes the sting from the Adieu

For the hopes of return is the joy of a tar
To his helm & and his compass his guide & his star
Tis empressid in his Bosom from the moment he sails
For it shortens Long nights and quickens Light gales

Here my Soul and soar aloft-
Up to the Throne on high
And breath a prayer to God Above
That we may feel him nigh

And when my Earthly Course is run
My body caged to dust
Then may I look for Bursting Grace
For in Christ I will put my trust

'Tis now I Leave your arms my Love
I to the Sea must go
O now I Leave your arms my Love
for bittie is my woe
They all the one that cars for me
or my Loanson hart would cheer

The Sky is changed, and such a change! Night
and Storm and darkness, yeare wonderous strong,
Yet Lovely in your strength as is the Light
of a dark eye in woman
Far along, from cloud to cloud
the rolling Thunder roars,
Leaps the blue Lightning Not from
one Lone cloud, but every cloud sends forth
an awful roar, and this is Night
Most glorious night. Thou wert not made
for slumber Let me be a sharer in the
Tempest and of thee thy fire & light and thy

In the I fondly hoped to clasp
A friend whome death alone could seve
But fortune with malignant Grasp
has torn the from my Brest asunder

Tru She has forced the from my Bres,
But in my hart then keep thy seat
there there thine Image still must rest
untill this hart shall cease to beat

A Boundless Ocean now does lye Between
Me and the Object of my tenderest care
I see in fancy oft thos hills so green
Where you and I so oft have rambled there

I see in fancy oft thoes Purling streams
Where you and I have rambled on the Brink
And While around me Oceans wildest sceans
tis pleasure for me on thoes sceans to think
